

Timur Tokumov

Frontend Engineer

Astana
+7 (776) 113-32-22
t.tokumov@gmail.com

- Frontend Engineer with 4+ years of commercial experience developing and maintaining web applications using React, Next.js, Angular, and TypeScript.
- Experienced in building responsive user interfaces, integrating REST and GraphQL APIs, improving application performance, and delivering SEO-friendly SSR solutions. Strong background in Angular migrations, frontend modernization, code refactoring, and maintaining scalable codebases across commercial projects.
- Comfortable working in cross-functional teams, participating in code reviews, sprint planning, technical discussions, and delivering production-ready solutions from requirements to deployment.
- Seeking remote opportunities in product-focused or outsourcing teams.

Work Experience

MORRE LLC

08/2022 - Present

Frontend Developer

- Developed and maintained commercial web applications using React, Next.js, Angular, and TypeScript.
- Built responsive pages, reusable UI components, and complex user workflows for e-commerce platforms and internal business systems.
- Implemented new features and refactored existing Angular applications, improving maintainability, code quality, and long-term scalability.
- Migrated Angular applications across framework versions, resolving dependency compatibility issues and adapting projects to stricter TypeScript standards.
- Integrated frontend applications with REST and GraphQL APIs, ensuring reliable communication with backend services.
- Improved frontend performance through code refactoring, dependency optimization, and UI enhancements.
- Developed and maintained SSR-powered and SEO-optimized pages using Next.js.
- Collaborated with designers, backend developers, QA engineers, and product stakeholders throughout the development lifecycle.
- Participated in code reviews, task estimation, sprint planning, and technical discussions to maintain development quality and consistency.

Skills

Frontend

- Angular
- CSS3
- HTML5
- JavaScript
- Next.js
- React
- SCSS
- TypeScript

State Management

- Redux
- RxJS

APIs & Data

- GraphQL
- REST API

Tools

- Figma
- Git
- Webpack

Additional

- Code Review
- Frontend Migrations
- Legacy System Modernization
- SEO Optimization
- Server-Side Rendering (SSR)

Languages

- English — A2 (Elementary)
- Russian — Native

- Utilized Git, Webpack, and browser developer tools to streamline development workflows and troubleshoot production issues.

HTML Academy Accelerator

02/2022 - 08/2022

Frontend Developer Intern

- Contributed to team-based development of educational and commercial-oriented frontend projects.
- Developed responsive and cross-browser user interfaces using HTML, Pug, CSS, SCSS, and JavaScript.
- Built interactive UI components including sliders, tabs, modals, validated forms, filtering, and sorting functionality.
- Applied BEM methodology and modern development workflows using Git, GitHub, Webpack, and Gulp.
- Collaborated with QA specialists to identify, reproduce, and resolve frontend defects.
- Integrated third-party libraries and APIs, including Swiper and Yandex Maps API.
